

Rain-X Anti-Fog is designed to eliminate interior condensation caused by wet weather, high humidity levels or temperature changes.

The new and improved formula provides increased anti-fogging protection and works well even under high humidity conditions.

This makes it ideal to reduce steaming in bathroom mirrors as well as interior automotive glass.

Product features

- Prevents interior fogging before the problem begins.
- Available in 200 ml bottles.

Product Usage Instructions

- Apply a small amount of Rain-X® Anti-Fog to a paper towel or cotton cloth.
- Wipe across surface to be treated.
- Allow to dry.
- Re-apply as needed to maintain fog-free condition.
- If any haze appears due to excess application, sprinkle with water and wipe with a dry cloth or paper towel until clear.
